👤 PROFILE

Experienced Software Engineer with 3.9+ years in software engineering, specializing in React.js, Node.js, and database management. Skilled in optimizing application performance, improving speed, and ensuring scalability. Passionate about developing high-quality, efficient web applications and contributing to dynamic development teams.

💼 PROFESSIONAL EXPERIENCE

Techerudite PVT LTD

Software Engineer

April 2025 – September 2025 | Ahmedabad

Acquaint Softtech Private Limited

Software Engineer

February 2024 – March 2025 | Ahmedabad

Tristate Technology LLP

Software Engineer

January 2022 – February 2024 | Ahmedabad

🎓 EDUCATION

Sardar Patel University

Master of Computer Application

July 2020 – May 2022 | Anand, India

Veer Narmad South Gujarat University

Bsc Computer Science

July 2017 – May 2020 | Valsad, India

🧠 SKILLS

Frontend

JavaScript, React.js, Next.js, Redux-Toolkit, Zustand, Bootstrap, HTML, CSS, Tailwind CSS

Backend

Javascript, Node.js, Express.js, REST API, PostgreSQL

Others

AWS, Git, GitHub, Problem-Solving, Team Collaboration

🌐 LANGUAGES

Gujarati, Hindi, English

📁 PROJECTS

Faces Consent

(React.js, Redux Toolkit, CSS, Tailwind, PostgreSQL)

Faces Consent is an all-in-one digital platform for aesthetic and beauty professionals—offering digital consent and medical forms, client bookings, online prescriptions, appointments, and more.

- **Developed a fully dynamic Prescription module** within a single reusable component, where dashboards and workflows adapt based on user roles (Practitioner, Prescriber, Pharmacy).
- Implemented **advanced product selection** with rating, price, pharmacy, and category filters, plus pagination for seamless browsing.
- Built **practitioner flow**: select prescriber, manage clients (add/edit via modal), attach prescriptions, upload **consent forms, medical forms, and documents**, capture digital signatures, and submit.
- Built **prescriber flow**: verify, review, and approve/reject prescriptions with feedback; approved prescriptions move to the cart for payment.
- Built **pharmacy flow**: approve/reject prescriptions after payment; approved ones trigger **direct product dispatch to practitioner addresses**.
- Integrated **AI summary generation** for products and compiled **client summaries** based on consent forms, medical forms, and prescriptions.

Enseedling

(Next.js, Zustand, Node.js, Tailwind CSS, Express.js, Sequelize, PostgreSQL)

Developed **Enseedling**, a comprehensive **job portal** and **e-learning platform** designed to connect job seekers, employers, and educators in a seamless digital environment.

- **Multi-User System**: Implemented **role-based authentication** for **job seekers, employers, and educators**, ensuring secure access and personalized user experiences.
- **Job Portal Features**: Enabled **companies to post job listings, candidates to apply**, and **educators to upload tutorials** for skill development.

Lifecell

Frontend Developer (Next.js, Redux, Redux Toolkit, Tailwind CSS)

Developed a **CRM** for field sales executives to streamline sales processes and customer management. Lifecell is India's first and largest stem cell bank, offering innovative and comprehensive **preconception, prenatal, and newborn diagnostic services**.
